VOLUME 121, 1992

THE New Phytologist

Founded in 1902 by Sir Arthur Tansley F.R.S.

EDITED BY

I. J. Alexander	*Aberdeen*
P. G. Ayres	*Lancaster*
D. Briggs	*Cambridge*
J. E. Dale	*Edinburgh*
J. G. Duckett	*London*
J. F. Farrar	*Bangor*
A. H. Fitter	*York*
J. R. Gallon	*Swansea*
A. Herold	*Sheffield*
D. H. Lewis	*Sheffield*
T. A. Mansfield F.R.S.	*Lancaster*
F. Martin	*Nancy*
D. Sanders	*York*
H. Thomas	*Aberystwyth*
R. G. West F.R.S.	*Cambridge*
J. Wolfenden	*Lancaster*
F. I. Woodward	*Sheffield*
M. M. Yeoman	*Edinburgh*

Advisors to *The New Phytologist Trust*

Sir John Burnett	*Oxford*
Sir David Smith F.R.S.	*Edinburgh*
P. J. Syrett	*Swansea*

CONTENTS

MAY 1992 VOLUME 121 NUMBER 1

The Tansley Fund of *The New Phytologist* Trust. Report on the 25th Anniversary Meeting of the Controlled Environment Users Group (*Lancaster, UK, 17–18 September 1991*) and Report on the University of Wales Colloquium on Genetics (*Gregynog, 10–12 January 1992*) 1

Ammonia and ammonium fluxes between photolithotrophs and the environment in relation to the global nitrogen cycle. By JOHN A. RAVEN, BERND WOLLENWEBER and LINDA L. HANDLEY 5

A comparison of ammonium and nitrate as nitrogen sources for photolithotrophs. By JOHN A. RAVEN, BERND WOLLENWEBER and LINDA L. HANDLEY 19

DNA topoisomerases in *Gloeothece* (Nageli) sp.ATCC 27152: a role in N_2 fixation? By T. S. PAGE and J. R. GALLON 33

Oxygen controls the development of *Frankia* vesicles in continuous culture. By S. L. HARRIS and W. B. SILVESTER 43

A containerized staining system for mycorrhizal roots. By V. P. CLAASSEN and R. J. ZASOSKI 49

Accumulation and excretion of sodium, potassium and chloride from leaves of two accessions of *Diplachne fusca* (L.) Beauv. By N. W. M. WARWICK and G. M. HALLORAN 53

Selection of donors for salt-tolerance in tomato using physiological traits. By J. CUARTERO, A. R. YEO and T. J. FLOWERS 63

Effects of salinity on root growth and death dynamics of tomato, *Lycopersicon esculentum* Mill. By S. S. SNAPP and C. SHENNAN 71

Amelioration of aluminium toxicity in wheat by fluoride. By D. C. MACLEAN, K. S. HANSEN and R. E. SCHNEIDER 81

Field studies on Norway spruce trees at high altitudes. I. Mineral, pigment and soluble protein contents of needles as affected by climate and pollution. By ANDREA POLLE, MICHAEL MÖSSNANG, ALEXANDER VON SCHÖNBORN, RUDOLF SLADKOVIC and HEINZ RENNENBERG 89

The late Quaternary vegetational history of northwest Greece I. Lake Gramousti. By K. J. WILLIS 101

The late Quaternary vegetational history of northwest Greece II. Rezina marsh. By K. J. WILLIS 119

The late Quaternary vegetational history of northwest Greece III. A comparative study of two constrasting sites. By K. J. WILLIS 139

REVIEWS 157

JUNE 1992 VOLUME 121 NUMBER 2

Synonymy of the three apparent isoenzymes of 3-deoxy-D-arabino-heptulosonate 7-phosphate synthase in *Pisum sativum* L. with 3-deoxy-D-manno-octulosonate 8-phosphate synthase and the DS-Co/DS-Mn isoenzyme pair. By R. L. DOONG and R. A. JENSEN 165

Calcification and utilization of inorganic carbon by the coccolithophorid *Emiliania huxleyi* Lohmann. By N. A. NIMER and M. J. MERRETT 173

The use of ion-selective microelectrodes for measuring calcium and hydrogen ion transfer between foliar surfaces and simulated rain solutions. By T. L. LAUVER, D. C. MCCUNE, J. E. SHAFF and L. V. KOCHIAN 179

Partitioning of biomass and carbohydrates in field-grown radish under ambient concentrations of ozone, and treated with the anti-ozonant ethylene-diurea (EDU). By REINHARD KOSTKA-RICK and WILLIAM J. MANNING 187

The response of spring wheat (*Triticum aestivum* L.) to ozone at higher elevations. I. Measurement of ozone and carbon dioxide fluxes in open-top field chambers. By A. GRANDJEAN GRIMM and J. FUHRER 201

The response of spring wheat (*Triticum aestivum* L.) to ozone at higher elevations. II. Changes in yield, yield components and grain quality in response to ozone flux. By J. Fuhrer, A. Grandjean Grimm, W. Tschannen and H. Shariat-Madari . 211

Cellulase production by the vesicular–arbuscular mycorrhizal fungus *Glomus mosseae* (Nicol. & Gerd.) Gerd. and Trappe. By J. M. Garcia-Garrido, I. Garcia-Romera and J. A. Ocampo 221

Effects of nitrogen source on growth, nutrition, photosynthetic rate and nitrogen metabolism of mycorrhizal and phosphorus-fertilized plants of *Lactuca sativa* L. By R. Azcón, M. Gomez and R. Tobar 227

The influence of varied microbial substrate conditions on the growth and mycorrhizal colonization of little bluestem [*Schizachyrium scoparium* (Michx.) Nash]. By J. A. Meredith and R. C. Anderson 235

Architectural analysis of plant root systems. III. Studies on plants under field conditions. By A. H. Fitter and T. R. Stickland 243

Effect of boron on the growth and mineral economy of some halophytes and non-halophytes. By J. Rozema, J. De Bruin and R. A. Broekman 249

Genecological studies of groundsel (*Senecio vulgaris* L.). I. Maintenance of population variation in the Cambridge University Botanic Garden. By D. Briggs and M. Block 257

Genecological studies of groundsel (*Senecio vulgaris* L.). II. Historical evidence for weed control and gene flow in the Cambridge University Botanic Garden. By D. Briggs, M. Block, E. Fulton and S. Vinson 267

Genecological studies of groundsel (*Senecio vulgaris* L.). III. Population variation and its maintenance in the University Botanic Garden, Cambridge. By A. J. Theaker and D. Briggs 281

Ecological segregation between closely related species in the flooded forests of the upper Rhine plain. By Annik Schnitzler, Roland Carbiener and Michèle Trémolières 293

Palyonological variation in *Primula* L. subgenus *Sphondylia* (Duby) Rupr., and the relationship of this group to *Dionysia* Fenzl. By Hussen Al Wadi and A. J. Richards 303

A pollen diagram, radiocarbon ages and evidence of agriculture on Extwistle Moor, Lancashire. By D. D. Bartley and C. Chambers 311

Reviews 321

Erratum 324

JULY 1992 VOLUME 121 NUMBER 3

Tansley Review No. 36

Excited leaves. By David Walker 325

Tansley Review No. 37

Circadian rhythms: their origin and control. By Malcolm B. Wilkins 347

Root–stem junctions of a desert monocotyledon and a dicotyledon: hydraulic consequences under wet conditions and during drought. By Frank W. Ewers, Gretchen B. North and Park S. Nobel 377

Long-term exposure of Norway spruce, *Picea abies* (L.) Karst., to ozone in open-top chambers. III. Effects on the light response of net photosynthesis in shoots of different ages. By G. Wallin, L. Skärby and G. Selldén 387

Long-term exposure of Norway spruce, *Picea abies* (L.) Karst., to ozone in open-top chambers. IV. Effects on the stomatal and non-stomatal limitation of photosynthesis and on the carboxylation efficiency. By G. Wallin, S. Ottosson and G. Selldén . 395

The influence of CO_2 and O_3, singly and in combination, on gas exchange, growth and nutrient status of radish (*Raphanus sativus* L.) By J. D. Barnes and T. Pfirrmann . 403

Pollination in species with dry stigmas: the nature of the early stigmatic response and the pathway taken by pollen tubes. By C. J. Elleman, V. Franklin-Tong and H. G. Dickinson 413

The influence of medium components on secondary embryogenesis of winter oilseed rape, *Brassica napus* L. ssp. *oleifera* (Metzg.) Sink. By C. S. Loh and G. K. Lim . . 425

The physiological importance of accumulation of cyclitols in *Viscum album* L. By ANDREAS RICHTER and MARIANNE POPP 431

Measuring investment in carnivory: seasonal and individual variation in trap number and biomass in *Utricularia vulgaris* L. By LAURIE E. FRIDAY 439

Effects of dichlorobenzonitrile on the formation of cell wall appositions (plugs) in internodal cells of *Chara corallina* Klein ex. Willd, em. R.D.W. and *Nitella flexilis* (L.) Ag. By ILSE FOISSNER 447

Microscopic evidence on how iron deficiency limits nodule initiation in *Lupinus angustifolius* L. By CAIXIAN TANG, A. D. ROBSON, M. J. DILWORTH and J. KUO . 457

Differential attachment by conidia of the endophyte, *Discula umbrinella* (Berk. & Br.) Morelet., to host and non-host surfaces. By L. TOTI, O. VIRET, I. H. CHAPELA and O. PETRINI 469

Vesicular–arbuscular mycorrhizal infection of grass seedlings in a degraded semi-arid savanna in Botswana. By E. M. VEENENDAAL, S. C. MONNAAPULA, T. GILIKA and I. L. MAGOLE 477

The clones of common lime (*Tilia* × *vulgaris* Hayne) planted in England during the seventeenth and eighteenth centuries. By DONALD PIGOTT. 487

REVIEWS 495

AUGUST 1992 VOLUME 121 NUMBER 4

Role of calcium in aluminium toxicity. By ZDENKO RENGEL 499

Growth and maintenance respiration in leaves of *Liriodendron tulipifera* L. exposed to long-term carbon dioxide enrichment in the field. By S. D. WULLSCHLEGER, R. J. NORBY and C. A. GUNDERSON. 515

Fructosyl transferase activity in the tissue-macerating preparation, pectolyase Y-23. physiological role of fructosyl transfer in *Aspergillus* and significance for studies of fructan synthesis in grasses. By ANA L. WINTERS, SJEF C. M. SMEEKENS and ANDREW J. CAIRNS 525

The effect of infection by *Erysiphe pisi* DC on acid and alkaline invertase activities and aspects of starch biochemistry in leaves of *Pisum sativum* L. By TREVOR STORR and J. L. HALL 535

Isolation and preliminary characterization of 5-fluoroindole-resistant and IAA-over-producer mutants of the ectomycorrhizal fungus *Hebeloma cylindrosporum* Romagnesi. By N. DURAND, J. C. DEBAUD, L. A. CASSELTON and G. GAY 545

Uptake and accumulation of radiocaesium by mycorrhizal and non-mycorrhizal heather plants. By G. M. CLINT and J. DIGHTON 555

Occurrence of nodulation in legume species in the Amazon region of Brazil. By FATIMA MARIA DE SOUZA MOREIRA, MARLENE FREITAS DA SILVA and SÉRGIO MIANA DE FARIA 563

Oriented degradation of the genome of cyanophage *AN-23* after exposure to NaCl. By I. BANCROFT and R. J. SMITH 571

Quiescent centre ontogenesis during early germination of *Allium cepa* L. By M. B. BITONTI, A. CHIAPPETTA, A. M. INNOCENTI, R. LISO and O. ARRIGONI 577

Vacuolar development in the root meristem of *Festuca rubra* L. By K. L. DAVIES, M. S. DAVIES and D. FRANCIS 581

Leaf adaptations of some *Shorea* species to sun and shade. By P. M. S. ASHTON and G. P. BERLYN 587

Leaf fracture toughness and sclerophylly: their correlations and ecological implications. By M. F. CHOONG, P. W. LUCAS, J. S. Y. ONG, B. PEREIRA, H. T. W. TAN and I. M. TURNER 597

Acidic mist and nitrogen fertilization effects on growth, nitrate reductase activity, gas exchange, and frost hardiness of red spruce seedlings. By S. J. L'HIRONDELLE, J. S. JACOBSON and J. P. LASSOIE 611

Effects of ozone on foliar nitrogen metabolism of *Pinus taeda* L. and implications for carbohydrate metabolism. By R. MANDERSCHEID, H.-J. JÄGER and L. W. KRESS. . 623

Field studies on Norway spruce trees at high altitudes: II. Defence systems against oxidative stress in needles. By ANDREA POLLE and HEINZ RENNENBERG 635

Effects of a short ozone exposure given at different stages in the development of *Plantago major* L. By K. REILING and A. W. DAVISON 643

Secondary homostyly in *Primula* L.; evidence for the model of the 'S' supergene. ByF. M. WEDDERBURN and A. J. RICHARDS 649

Association of esterase isozymes with morphology in F_2 progenies of two growth variants in *Poa annua* L. By H. DARMENCY, A. BERTI, J. GASQUEZ and A. MATEJICEK . . 657

Modern pollen rain studies of the Nile Delta, Egypt. By S. M. AYYAD, P. D. MOORE and M. A. ZAHRAN 663
